

2018 COLLECTION

HYBRID FOAM MATTRESSES

The Peak of Cooling and Comfort

TEMPTEC™ fabric removes humidity within the sleep environment and provides a cooler sleep surface improves the quality of your sleep all night long

A solid layer of TruGel® absorbs your body heat faster than traditional gel products, allowing your body to transition to sleep faster

Premium memory foam responds to the weight of the body, eliminating pressure points and providing relief to aches and pains

Glideaway's body support base was engineered to act as a "shock absorber" and cradle the weight of your body while supporting bone structure

Each pre-compressed, wrapped coil works independently to cradle your body and keep you in a comfortable, ergonomic position

Solid TruGel® Layer

TruGel® absorbs heat and provides maximum cooling allowing your body to transition into a better night's sleep.

TEMPTEC™ Fabric

TEMPTEC™ fabric removes humidity within the sleep environment and provides a cooler sleep surface improves the quality of your sleep all night long.

Synergy Support System

Each wrapped coil works independently to cradle your body and keeps you at the peak of comfort in an ergonomic position.

HYBRID FOAM MATTRESSES

Antimicrobial Memory Foam

Memory foam is naturally resistant to allergens, filters out harmful elements and controls odor, fighting mold and mildew.

Proper Support

Body Support Base was engineered to act as a “shock absorber” and cradle the weight of your body while supporting bone structure.

Solid TruGel® Layer

TruGel® absorbs heat and provides maximum cooling allowing your body to transition into a better night’s sleep.
